Welcome to our exclusive Masterclass on "Painting with Wine".

My name is Liliya Glimbotska and I'm a professional fine artist. I'm working in realism and impressionism styles.

In my pieces, the layering of textures and colors reflects the layers of experience and emotion that define our identities. I am passionate about the transformative power of art and its ability to evoke personal, emotional responses.

While my favorite mediums are oil, acrylic, and canvas, I'm thrilled to explore the unique world of wine art in this masterclass, blending my love for creativity with the rich, organic qualities of wine. Together, we'll unlock new ways to connect with art and the emotions it stirs within us.
